

**List of Poster by Alphabetical Order**

Posters will be displayed during the coffee & lunch breaks

Poster No.	Title	In-Person/Online
<b>IN-PERSON POSTERS</b>		
1	Phage Targeting Neonatal Meningitis <i>E. coli</i> K1 in the Intestinal Microbiota of Pregnant Donors and Impact on Bacterial Populations	In-Person
2	Bacteriophages and Neurons: Friends or Foes?	In-Person
3	Local Microorganism Collections as a Source of Phages for Therapy – This is the Way	In-Person
4	Selection of Bacteriophages with therapeutic potential based on Complete Genome Sequence Analysis	In-Person
5	Topical Bacteriophage Therapy for Canine Otitis Externa	In-Person
6	Isolation And characterization of Bacteriophage Effective against <i>Escherichia coli</i> and its Antibiofilm Activity	In-Person
7	Advocating for Phage Therapy in India: The Role of Chennai Declaration and AMR Declaration Trust	In-Person
8	Exploring Bacteriophage Therapy: Enhancing Activity against Multi-Drug Resistant <i>Pseudomonas aeruginosa</i>	In-Person
9	Semisolid Hydrophilic Drug Forms for Local Application of <i>Pseudomonas aeruginosa</i> Bacteriophages	In-Person
10	Phage-Antibiotic Synergy (PAS) Effect Evaluation and New Methods for its Detection	In-Person
11	Bacteriophage Encounter with Antineoplastic Drug for Combating Lung Cancer-Associated <i>Staphylococcus aureus</i>	In-Person
12	Propagation and Purification of <i>S. Epidermidis</i> -Specific Phage COP-80B for Preclinical Mouse Model Study	In-Person
13	Efficiency of Innovative Bacteriophage Products: Bafacol®, Bafasal® and Bafador® in Improving Animals Health in Poultry Farming and Aquaculture	In-Person
14	Activity Evaluation of Phage PSE1720 with Meropenem against <i>Pseudomonas aeruginosa</i> Strains Mucoid and not Isolated from People with Cystic Fibrosis	In-Person
15	Combination of Natural or Engineered Phages and Natural Bioactive Compounds against <i>Staphylococcus aureus</i> Associated Skin Issues	In-Person
16	New Ways to Fight Bacterial Pathogens: Metagenomics Analysis for the Discovery of a Thermostable Endolysin with High Bactericidal Activity	In-Person
17	Advanced Microscopic and Biosensing Approaches for Monitoring Bacteriophage-Mediated Lysis of Bacteria	In-Person
18	Carbomer Hydrogel Containing Bacteriophages and Endolysin Targeting Acne Vulgaris Associated Bacteria <i>Cutibacterium acnes</i> and <i>Staphylococcus aureus</i>	In-Person
19	Hierarchical Classifier of 171 Bacteriophage Genera with Related Families and Orders	In-Person
20	The Combination of Bacteriophages and Ceftazidime is Effectively Killed <i>Burkholderia pseudomallei</i>	In-Person
<b>ONLINE POSTERS</b>		
21	Effect of Methicillin-Resistant <i>Staphylococcus aureus</i> Phage, PhiMR003 on Mouse Wound Infection of MRSA Clinical Isolates	Online
22	Therapeutic Approaches with Phage Therapy in Veterinary Medicine: Food Safety	Online
23	Targeted Phage Treatment (TPT) of Tomato Seeds as Prophylactic Approach against Bacterial Leaf Spot Disease Caused by <i>Xanthomonas euvesicatoria</i>	Online
24	Longer Circulation and Improved Therapeutic Effect of T7 Bacteriophages by Tagged Immune Evasive Peptides	Online
25	<i>In Vitro</i> and <i>In Vivo</i> Efficacy of Two Bacteriophages Infecting <i>Enterococcus</i> Species	Online
26	Characterization and Genome Analysis of Newly Isolated Epeptimavirus to Evaluate of its Application to Biocontrol of Multidrug Resistant <i>Salmonella</i> in Food Matrix	Online
27	Perspectives of Gelatin-based Growth Media for the Optimization of Phage Therapy	Online
